Extra AI usage	\$0.15 per extra action	\$0.10 per extra action

Billing and scope

All prices are in US dollars (USD), per workspace. Monthly subscriptions are billed each month; annual subscriptions are billed once per year at the full annual amount shown.

Prices exclude applicable taxes. Paddle calculates applicable tax and shows the final total before you confirm checkout.

Paddle is the merchant of record for these Pro and Enterprise cloud software subscriptions. Subscriptions renew automatically unless cancelled; cancellation takes effect at the end of the current paid period.

The listed amounts are standard recurring subscription prices, not introductory offers. Any eligible promotion is shown separately at checkout.

This rate card covers cloud software subscriptions only. Hourly consulting, professional services, self-hosted deployments, air-gapped deployments and custom contracts are not included.
